PRESS RELEASE

Radius, the science fiction universe created in Marília, Brazil, turns 30 in 2026

Created by Tiago de Moraes das Chagas in 1996 and published by Mustache Comics, Radius is a science fiction universe born in Marília, a city in the countryside of São Paulo state, Brazil. The first saga, in three volumes, was released between 2022 and 2024 and can also be read on Kindle.

Pituco came out of the pages of Radius: a mixed-breed dog adopted during the pandemic who inspired one of the heroes of the series. His story became the book Quatro Patas: a história de Pituco, got its own comic, Pituco Nº 1: Aurora Esmeralda, and the dog became the mascot of the animal welfare cause in Marília.

Today Pituco leads the Universo Pituco, a new Mustache Comics line for children, with 15 heroes and the door open to animation.

Radius and Pituco have been covered by G1, TV TEM, Record, SBT, Band, CBN, Rádio Senado, Metrópoles, R7, Terra and NSC Total in Brazil. In the United States, they were featured by First Comics News and Comic Crusaders.
